How to fill out 78-013 — Affidavit of Ownership of Motor Vehicle

Mississippi · written against 78-013 (Rev 08/21), issued under the possessor of the vehicle, sworn before a notary, </forms/mississippi/78-013-affidavit-of-ownership/> with the bill of sale attached

The sworn half of a bonded title - for the person who bought a vehicle and never got a certificate, or cannot get one from the previous owner or dealership. You swear you are the legal owner by virtue of the attached bill of sale, name who the vehicle came from with a reachable telephone number, explain in your own words why you cannot surrender the current certificate, and certify the mileage. With the surety bond and the bill of sale, it is the application file for a title built on evidence instead of paper.

This sheet is not the form. Download the blank 78-013 from the Mississippi Department of Revenue, Motor Vehicle Services at https://www.dor.ms.gov/sites/default/files/tax-forms/motor-vehicle/78013188%2520Affidavit%2520of%2520Ownership_0.pdf — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	BUYER	County, name, address, oath	The county where you are swearing, then your name and full address into the deposition's opening. Watch out: The county is the notary's venue, not the vehicle's - swear it where you actually stand.
2	BUYER	VIN, year, make	The vehicle in three blanks. Watch out: Read the VIN off the vehicle itself - on a bonded application the plate on the dash is the one identity nobody is vouching for yet, and the DPS inspection will read it off the metal too.
3	BUYER	The seller, findable	Who the vehicle came from, their address, the required telephone number, and the state where it was last registered. Watch out: An estate, a defunct lot, a private name - give what exists and make the explanation lines carry the rest. The examiner's first question is always whether the real owner can be asked.
4	BUYER	Your own words, doing real work	Why the current certificate cannot be surrendered, in the space provided. Watch out: Dates, names, attempts made. This paragraph is what the bond underwriter and the examiner both price the risk on.
5	BUYER	The tag question and the mileage	Whether a tag was on the vehicle and its state and number if so, then the odometer certification with its two exception statements. Watch out: The tag number is a gift to your application - it lets the Department walk the registration record backwards to the last titled owner.
6	BUYER	Inspection if it is young, notary regardless	Ten model years or less: DPS substation first, MVCT-59 in hand. Then print, sign and swear before the notary. Watch out: Sequence matters - inspection before application, oath before filing, and the bond's own 30-day filing window ticking behind all of it.

What gets this one rejected

- No bill of sale attached. The whole oath hangs on by virtue of the attached bill of sale - without it you are swearing to ownership evidenced by nothing.
- An unreachable seller with no explanation. The telephone line is printed (Required); a disconnected number with no account of why invites the examiner to stop reading.
- A newer vehicle with no MVCT-59. Ten model years or less means a DPS substation inspection first, and the officer's form travels with the application.
- A thin story on the ruled lines. Never received a title from the previous owner is a start; when, from whom, and what you did about it is what a sworn statement of this kind is for.
- Forgetting this is half a file. The FAQ's bonded-title recipe is three items - surety bond for one and a half times the average trade-in value, completed affidavit of ownership, bill of sale - and an affidavit alone titles nothing.
