How to fill out DMV-1-TR — Application for Certificate of Title

sellmycarhub.com

West Virginia · written against DMV-1-TR (Rev 11/2022), issued under W. Va. Code 17A-3-4 and </forms/west-virginia/dmv1tr-application-for-certificate-of-title/>
17A-4-3

The sheet that turns your assigned certificate into the buyer's new title, and the one place the whole deal is added up: price, trade-in, net cost and the 6% sales tax on one row, the insurance certification underneath, and a fee table on the reverse that itemises what the cheque to the Division must cover. The buyer signs it under penalty of false swearing; there is no seller signature on the front of it at all, because West Virginia already collected yours on the back of the certificate. What a seller cannot ignore is that its figures are read against the assignment you wrote - the same price, the same mileage, the same names.

This sheet is not the form. Download the blank DMV-1-TR from the West Virginia Division of Motor Vehicles at https://webapps.transportation.wv.gov/TWS/WVDOTDocumentStorageMigration/PDF/Transportation/DMV/DMVFormSearch/DMV-1-TR_Certificate-for-Title-of-Motor-Vehicle-wf.pdf — always take the current revision from the agency rather than a copy. Print this and keep it beside you while you complete theirs.

Every line, in the order you meet it

1	BUYER	Buyer name and mailing address	Full name as it should read on the new certificate, then the one-row address with county included. Watch out: The county box matters here in a way other states' forms don't warn about - it is where the personal property tax on the vehicle will be assessed each year.
2	BUYER	Vehicle description	Make, year, VIN, body style and weight, copied from the certificate rather than from memory. Watch out: The Division's buyer warning is to confirm the VIN on the physical vehicle matches the certificate exactly - this box is where a transposed character gets immortalised.
3	BUYER	Odometer reading and brands	The same whole-mile figure the seller certified on the back of the title, and a tick only if the certificate already carries a brand. Watch out: No tenths. And no invented brand honesty either - the brand row copies the certificate, it does not editorialise about the car's condition.
4	BUYER	Purchase price to net cost	Price paid, trade-in if a dealer deal, net cost, then 6% of the net. Watch out: On a private sale the price and the net cost are the same figure. If that figure is under half of book value, the notarised bill of sale must be in the same envelope or the tax is recalculated on the book.
5	BUYER	Liens and encumbrances	The buyer's lender, if the purchase is financed - name, amount, lender code, address, kind and date. Nothing here concerns the loan you already paid off. Watch out: An individual lender rather than a bank needs the signed loan agreement attached - the Division will not record a private person as lienholder on paperwork alone.
6	BUYER	Insurance information	Company, agent, policy and NAIC number, feeding the certification beside it. Watch out: This is the certification the verification computer checks later. A policy bought the same morning is fine; a policy promised for next week is a rejected application.
7	BUYER	Purchaser signature(s)	One (X) line, or both where the new title reads AND, signed under penalty of false swearing. Watch out: The citation printed beside the oath is 17A-9-1, Fraudulent Applications. It reaches every figure above the line, including the price.
8	DEALER	The dealer certification	Acquisition and sale dates, the price certification and the dealer's own odometer statement - completed only when a licensed dealer sold the car. Watch out: A private seller who writes here has certified a dealer sale that never happened. Leave it to the trade.
9	BUYER	Fees, then the envelope	Total from the reverse's fee table - \$15.00 title, tax, and whichever registration line applies - as one cheque to the Division of Motor Vehicles. Watch out: The checklist on the back is worth actually running: signatures, payment, insurance proof, and the registration card copy if a plate is transferring.

What gets this one rejected

- A price or mileage that disagrees with the certificate's assignment. The two documents travel together and are compared line by line - the pairing is the audit.
- One signature where the new title will read AND. The rule is printed directly above the signature lines, and the application is the document it binds.
- No insurance to certify. The form's own emphatic line is that insurance must be in effect when this application is received.
- Trade-in credit claimed on a car never titled here. The bracketed condition requires the trade-in titled in West Virginia with its tax paid by this applicant.
- Cash in the envelope. The instructions say do not send cash, and a bounced cheque costs its own \$10.00 service charge.
- A previously-titled out-of-state vehicle arriving without its title. The instruction line requires that title to accompany this application.

☐ Amber is what you write ☐ Grey is a block somebody else completes The filled-in example is at the start of this sheet.
