How to fill out a Wyoming title

Wyoming Certificate of Title · 7 of 10 boxes are the seller's · rules as of 2026-08-23

sellmycarhub.com
[/forms/wyoming/certificate-of-title/](#)

This sheet is not the title. It is the checklist to keep beside one. The head of the page reads THIS DOCUMENT IS VOID IF ALTERED, and under it the reminder that knowingly providing false or incomplete information is a felony under W.S. 31-4-102. Read the whole side before the pen comes out. The clerk's own instruction sheet walks the same order: complete the purchaser's name in the first box before anything is signed, complete the odometer statement, then have every seller the conjunction rule requires sign in front of the notary - and it warns that a back that has not been correctly completed means being turned away at the counter or having the paperwork posted back.

Who has to sign

Every owner the conjunction requires, in section 3	On a title issued on or after 1 January 2020, OR or no conjunction lets one owner sign; AND requires them all; JTWROS requires them all whatever the connector. On a title issued before that date, all of them, always.
The same owners again, in front of a notarial officer	The Seller's Notary Statement under the signature lines is marked MUST BE NOTARIZED, and the officer prints the sellers' names into it as the people who appeared. A county clerk's office will do it; so will a bank or any commissioned notary.
The seller, once more, in section 2	The odometer disclosure carries its own signature and printed name. It is not part of the notary statement and it is not optional on a vehicle still inside the twenty-year window.
At least one purchaser, to acknowledge the reading	The line under the notary block reads Signature of Purchaser (Required to acknowledge odometer), and it is separate from their signature in section 4.
The purchaser or their agent, in section 4	Signed under penalty of perjury, with the lien block above it completed only if they borrowed to buy. A business signs in its own name with the signer's title beside it.
Nobody, on the front	The face of the certificate belongs to the county clerk that issued it. The lien table under FOR COUNTY CLERK'S USE ONLY is where a release is endorsed, and it is endorsed by the clerk, not by you.

Every box, in the order you meet it

#	WHO	BOX	WHAT GOES IN IT
0	YOU	Before any ink: read the front	Check the conjunction between the owner names, check the vehicle brand box, and check the lien table under FOR COUNTY CLERK'S USE ONLY for a lender with no release endorsed beside it. Watch out: Those three readings decide who has to come to the notary with you, whether the sale needs a Branded Title Disclosure Statement, and whether you can sell at all this week or need a lien release from the lender first.
1	YOU	Section 1: write the buyer in, before anything is signed	Purchaser's names printed, the joint tenancy question answered Yes or No, and the buyer's mailing and physical address with a phone number. The section's own instruction is that the seller completes the purchaser's names and delivers the title to them at the time the vehicle is delivered. Watch out: This is the box that makes an open title impossible in Wyoming. A clerk will not notarise section 3 while section 1 is blank, so filling it in is not a formality - it is the thing that lets the rest of the page happen.
2	YOU	Section 2: the reading, in whole miles	Your signature, your printed name, and the odometer reading with no tenths, plus a tick only if the mileage exceeds the odometer's mechanical limits or is not the actual mileage. Watch out: Read the vehicle's model year against the note printed in the box rather than against what somebody told you. Model year 2011 and newer runs to twenty years of service; 2010 and older stopped at ten.
3	YOU	Section 3: the warranty and the two brand questions	The certification that you are the lawful owner and that the liens noted on the front are the only ones, then the two printed questions - has this vehicle ever had a branded title, and has it been declared a total loss or sustained 75% damage of actual cash value. Watch out: Answer both honestly and in the buyer's sight. A Yes means an MV-602 disclosure is due before the sale, and a buyer who later proves you knew and did not say can unwind the deal.
4	YOU	Section 3, lower: price, date, and every signature the conjunction requires	Each seller signs on their own line, the printed names go underneath, and the sales price, date of sale and a phone number complete the row. Watch out: The price is not decoration - the county treasurer computes the buyer's sales tax from the sale, and a blank there is a conversation at the counter that ends with somebody phoning you.

#	WHO	BOX	WHAT GOES IN IT
5	YOU	The notary block: sign it in front of the officer	The Seller's Notary Statement is marked MUST BE NOTARIZED. The officer writes the sellers' printed names into it as the people who appeared, adds the state and county, the date, their signature, their commission expiration date and their seal. Watch out: Take photo identification and take every seller with you. An officer can acknowledge only a signature made in their presence, and a co-owner who signed at home in the morning has to come back.
6	BUYER	The purchaser acknowledges the mileage	One line below the notary block: Signature of Purchaser (Required to acknowledge odometer), with their printed name beside it. Watch out: It is separate from their signature in section 4, and it is the one buyers most often skip - which leaves the odometer disclosure incomplete and the clerk unable to take it.
7	BUYER	Section 4: hand the page to the buyer	The purchaser's application - a sworn statement that they are lawfully applying for a Wyoming title, with the lien amount, date and document number and the lienholder's name and address if they borrowed, and their signatures and printed names. Watch out: Tell them what it is. Completed properly, this section IS their title application, and a private buyer who fills it in needs no separate form at the clerk's counter.
8	YOU	Take your plates off before the truck leaves	The registration expired at the moment of transfer and the statute says the original owner shall immediately remove the license plates. Watch out: There is no refund to claim - only a transfer, at the county treasurer, of the registration number onto a replacement vehicle within sixty days of acquiring it, with credit for the months you did not use.
9	BUYER	The buyer's forty-five days, and their sixty-five	Forty-five days to present the certificate to their county clerk and register, and sixty-five days from the date of sale before the sales tax starts drawing interest and a civil fee at the county treasurer. Watch out: Both clocks run from the date you wrote in section 3, which is another reason it is worth writing accurately. During those forty-five days the properly executed title is what makes their driving legal.

Six rules for a certificate that is void if altered and sworn when it is signed

- **Fill sections 1 and 2 first, sign section 3 last** — Wyoming's order is not a preference. The notary cannot stamp a page whose purchaser block and odometer statement are empty, so the sequence is fixed by the person holding the seal.
- **Bring the pen to the notary, not the notary to the pen** — A signature has to be made in front of the officer who acknowledges it, with identification produced. Every co-owner whose signature the conjunction rule requires has to be in the room.
- **Black or blue ink, no correction fluid, no writing over** — VOID IF ALTERED is printed at the head of the section you are signing, and W.S. 31-4-102 makes altering an assignment with fraudulent intent a felony rather than a fine.
- **Whole miles, no tenths, and no word where a number belongs** — The odometer box wants a figure and, if either applies, one tick. Writing exempt across it on a car that is inside the window leaves the section incomplete rather than excused.
- **Do not sign a second time to fix the first** — There is one assignment on a Wyoming certificate. A mistake is fixed at the county clerk's counter - ask before you write anything else, because the alternative is a \$15 duplicate and a second trip to the notary.
- **Photograph the finished back before it leaves the table** — Wyoming has no notice of sale, so what you keep is what you can later show: the completed sections, the notary's seal and date, and the plate numbers you removed.

Every rule here is transcribed from Fremont County Clerk, Wyoming Certificate of Title sample and information and the Wyoming Department of Transportation, Motor Vehicle Services's own pages. Plain-language help with a form, not legal advice — where our wording and the agency's differ, theirs governs.
